A few words from **Head Instructor and Examiner Mr Malik Ayman 4th Degree Black Belt** "With experience of teaching, grading and developing Black Belts for over 12 years myself as Instructor and assisting, I must state here clearly that the standards of students of **Five Pillars Taekwon-Do** in my professional opinion are **more than above average** students of martial arts and Taekwon-Do, and this can be measured externally by achievements outside of our own events at competitions "locally and International too" in patterns and sparring (win or lose – conduct, attitude, strong spirit) and the correct development input of students towards developing their best **continuously taking part in competitions, seminars and programs to develop themselves**"

With our emphasis on "**Unique 4E © system Educational Energetic Exciting Empowering**" – these pillars of our Taekwon-Do teaching enable students to have an essential strong balance of fun whilst learning and developing making good progress – which again enhances and enriches our martial arts teaching concept "**a unique and professional approach to martial arts successful outcomes**"
